CASE REPORT FORM (CRF) 2012
Norovirus Genogroup Correlation with Acute Diarrhea Severity in Indonesian
Pediatric Patients Aged 1-60 Months

Subject Initial:

--	--	--

Date entering the hospital : _____

Registry number : _____

A. PATIENT IDENTITY		
1	Name	
2	Birthday	___/___/___ (Date/Month/Year)
3	Age when entering the hospital	___ tahun ___ bulan ___ hari
4	Gender	L / P
5	Nutrition Status	Buruk / Kurang / Baik / Overweight / Obesitas

B. HISTORY TAKING		
B.1. History of Disease		
1	When did diarrhea first occur before entering the hospital?	___/___/___
2	How many days does the patient have diarrhea before entering the hospital?	___ days
3	What is the maximum frequency of patients experiencing diarrhea?	___ times / 24 hour
4	Is the diarrhea followed with fever?	a. Yes b. No → go to number 6 c. Do not know
5	How many days has the patient had a fever?	___ days
6	Is the diarrhea followed with vomiting?	a. Yes b. No → go to number 10 c. Do not know
7	How many days has the patient had vomit?	___ days
8	What is the maximum frequency of patients vomiting?	___ times
9	Is the patient currently vomiting?	a. Yes b. No
10	Can the patient still able to drink now?	a. Yes b. No c. Do not know
11	Has the patient ever been examined at a health facility before entering the hospital?	a. Yes → go to number 13 b. No → go to number 14
12	If yes,	
a	What therapies are given by the health facilities?	
	1) Oral rehydration solution (ORS)?	1. Yes

		2. No 3. Do not know
	2) Zinc	1. Yes 2. No 3. Do not know
	3) Antibiotic	1. Yes 2. No 3. Do not know
13	If not , what therapy is given at home?	a. Household fluid, such as _____ b. ORS, _____ c. Remedies, _____

B.2 BREASTFEEDING HISTORY

1	For children aged 0-6 months:	a. Exclusive breastfeeding b. Partial breastfeeding c. Formula milk only d. Others, _____
2	For children aged >6 months:	
	1. Did the patient receive exclusive breastfeeding?	a. Yes b. No
	2. At what age are the patient weaned?	_____ Months old

C. PHYSICAL EXAMINATION

1	Main Sign	
	1.1 Body temperature	_____ °C
	1.2 Pulse	_____ x/minute
	1.3 Respiratory rate	_____ x/minute
4	Patient awareness when entering the hospital?	a. Good/compos mentis b. Irritable/agitated c. Lethargy / unresponsive
5	Thirst: What is the response when the child is given a drink?	a. Can not drink/not able to drink b. Thirsty/ drank ravenously c. None

D. DIAGNOSIS

1	Acute watery diarrhea with a degree of dehydration:	a. No dehydration b. Mild dehydration c. Severe dehydration
2	Other diagnosis, if any: (e.g cerebral palsy, epilepsy)	1. _____ 2. _____ 3. _____

F. PATIENT RESUME

1	Diagnosis:	
2	Anal redness	a. Present b. Not present
3	Bloating	a. Present b. Not present
4	Vomit	a. Present b. Not present

5	Total fever duration	_____ days
6	Total diarrhea duration	_____ days
7	Days of hospitalisation	_____ days
8	Received rehydration therapy (can be more than one)	1. IV rehydration 2. ORS 3. Others, _____
9	Date of discharge	____/____/____ (date/month/year)

G. SPECIMEN COLLECTING

1.	Was the specimen collection successful?	1. Ya 2. No
2.	Specimen volume?	_____ ml
3.	Specimen number?	_____

RESUME

<input type="checkbox"/> Subjects met the inclusion criteria	<input type="checkbox"/> CRF completely written
<input type="checkbox"/> ICF completely written	<input type="checkbox"/> Feces sample collected
